

Quality Policy Statement

Greig Engineering Ltd (the Company) was formed in 1922 and operates from its premises at Souterhead Road, Altens Industrial Estate, Aberdeen, AB12 3LF. The Company manufactures equipment from all sectors of the industry but primarily for Oil and Gas related companies.

It is the policy of the company to be a customer-focussed organisation, which understands customer needs, meets requirements fully and strives to exceed their expectations. This policy shall be fulfilled commensurate with the requirements of ISO 9001:2015, ISO 3834-2:2005, the UK Pressure Equipment (Safety) Regulations, national and international standards and client specifications of which the Company is fully committed to comply with.

The Quality Policy shall be implemented by the quality manual, procedures, workflows, quality plans and forms.

Senior Management will review the performance of the Management system and objectives at set intervals to ensure that the requirements of this policy are met and monitored at Management review.

The Company shall ensure that all objectives are actioned upon and reviewed for improvement by Top management to assist in the continual improvement of the quality Management system.

This document has been formulated to serve as a reference base for the quality policy and procedures of the company and as an aid to continuity of practice and as a reference against which the current quality system can be reviewed and audited.

The achievement of improved quality is recognised by the company to be a mixture of the commitment and leadership of Senior Management and the involvement of all personnel.

The effectiveness of the management system is continuously reviewed to identify and implement improvements. Quality objectives are established and implemented within the framework of the quality management system and are reviewed and measured for effectiveness on a regular basis.

Whilst it is the overall responsibility of the Managing Director to ensure that Greig's quality policy and expectations are understood, implemented, and maintained throughout the Company, each individual is responsible for complying with company requirements as laid out in the quality manual and Management System.

This quality policy is communicated and understood within the organisation and is available to the public and interested parties.

This policy is reviewed on a regular basis for continuing suitability.
